### **NOTICE**

It is more important than ever before, that customers see the irises before ordering them, there are so many varieties, differing very slightly in tone or carriage. Also, color terms do not convey the same ideas to everyone. Of many of the varieties listed, we have a very limited stock, so early orders are advisable. We reserve the right to withdraw from sale any irises of which the stock is depleted.

Descriptions of the new varieties are those given by the originators.
